## Seek Confusion End Over Emergency Call Handling

A cooperative method in relaying emergency phone calls was sought this week by County Supervisor Kenneth Hahn.

He pointed out that in many cases citizens wishing to report fires or accidents are uncertain of the proper jurisdiction to call.

Several such instances have recently occurred in the Torrance area, because of confusion over Torrance, Los Angeles and county jurisdiction east of Western Ave.

"In some cases I have learned about, the agency receiving the emergency telephone calls merely advised the persons that the call should be made to another jurisdiction," Hahn said.

He termed this procedure "most frustrating," and asked that a plan be worked out so that the department called will either respond itself or notify the proper department to eliminate the confusion to the citizens.
